Dated: 13.7.2012

To

All District Collectors

Subject : Appointment of District Technical Representative

Sir/Madam,

As you are aware implementation of RajSWAN is in progress and RajSWAN operator viz. M/s Bharti Airtel Limited in consortium with M/s Trimax Infrastructure Pvt. Limited would start installing the required hardware at various vertical PoPs and horizontal offices located at district and block/tehsil head quarters.

Nodal officers for each districts have already been appointed. To ensure that the work is done by the RajSWAN operator as per best practices and quality standards and meeting the technical requirements and specifications of the project, it is necessary that the work of the RajSWAN operator is closely supervised by a technical officer posted in the district. This technical officer will coordinate with RajSWAN operator on technical matters and will also be associated in acceptance testing. He will also work as deputy to the Nodal officer already appointed and assist him in all matters related to the implementation of the project.

In view of this, you are requested to appoint a technical officer of NIC or DoIT&C or any other government officer posted in your district as district technical representative for this purpose. A workshop cum training is scheduled to be held on 23.07.2012. You are also requested to kindly depute the officer for the training cum workshop.

Yours sincerely,

27-207
(Sanjay Malhotra)
Secretary, IT&C
