List of Use Cases of 3D city	
Use-Case developed/ in process	**Concerned Department**
• 3D walkthrough of approximate 7Sq. km area of C-scheme	POC by DOIT&C
• Redesigning of Jyoti Nagar Park with re-modeling, placing of assets from library, including parking, etc,	JDA, Nagar Nigam & PWD
• Planning, creation and visualization of proposed Govind Marg Flyover from Police Memorial Circle to Transport Nagar including, path correction and building obstruction analysis.	JDA, Nagar Nigam & PWD
• Importing of Sodala Flyover data as received from JDA and demonstration in the platform	JDA
• Line of Sight / Field of View analysis for CCTV camera at Ambedkar Circle & Vidyut Bhavan building	ACCC
• Shadow Analysis for RSDC-P4 & Techno Hub even before the construction activities are undertaken.	DoIT&C
• Foot-Over Bridge (FOB) planning as per available area and road width	JDA, Nagar Nigam, PWD, Disaster Management

Proposed Use Cases of 3D city	Concerned Department
• 3D City: Holistic 3D View of the City with great insights and depths to manage the city as a subject. The platform will act as a Virtual Twin of Jaipur City.	JDA, Nagar Nigam, Police, PHED, Transport, Traffic Management , Home, Disaster Management, Medical Department
• Law and administration: Capability to visualize and analyze the area of concern, the law & administration of the city can be improved to a large extent to provide a safe and secure city to citizens.	Home Department
• Unified Decision Support System for City: Unified Dashboard with all relevant data & analytics, including information from existing 2D & 3D GIS initiatives.	Town Planning
• Ease of City Planning: to assist & enable the city planners to plan, create, visualize, and simulate various planning scenarios without the need to visit the field.	Town Planning
• Emergency & Disaster Management: In adverse situations like Fire, Floods, EarthQuake or any other emergency, such systems will assist in quick action on the ground to save life.	Disaster Management
• Large Scale Infrastructure Project Planning & Monitoring: high importance projects can be tracked in a real life environment by recording progress in a 3D environment. Projects such Area Based Development, Greenfield Development, Metro Development, Flyovers, etc. can be planned and shown with respect to the existing city infrastructure.	Metro
• Collaboration tools for city development: Functionality for participation of city agencies / departments, citizens and experts in the city development activities. Crowd Sourcing can be enabled to source ideas and seek feedback on development plans	JDA, Nagar Nigam, Police, PHED, Transport, Traffic Management , Home, Disaster Management, Medical Department
