

GOVERNMENT OF RAJASTHAN  
Department of Information Technology & Communication

No. F9(88)/DoIT/Trg/12/Part-1 /03628/2021

Jaipur, Dated : 29/09/2021

Training Order

Web Content Accessibility Guidelines (WCAG) Awareness Session is being organized on 01.10.2021 from 11:00 AM to 12:30 PM.

The aim of the webinar is how the websites and portals of the Government Departments/PSUs/Boards/Organizations should be easily accessible by disabled persons so that the Government message/schemes and initiatives information reach to each citizen in effective manner.

MeitY, Government of India has initiated "Accessible India Campaign" for creating universal accessibility to persons with disabilities in Transport and Information and communication technology (ICT ecosystem).

The Government of India also published a list of parameters to be check for accessibility guidelines based on international standard WCAG2.0. The GoI also recommended using WAVE tool for identifying and marking accessibility errors and warning on all websites.

The website cell collated all the content and created the simple version of these guidelines and prepared a user manual to use WAVE tool and rectification of identified errors and warnings.

All OICs with their team members are requested to attend the above training programme through Webex. Webex link to join the programme is being sent through mail.
